WORK EXPERIENCE

Graphic Design & Product Designer **07/2022 - 06/2023**

White-Lable Customs, Inc.

In my role at the company to create a new product line, I was responsible for all design work and worked closely with the Chinese manufacturer. The exciting thing is that in just one month, our sales reached 30,000 pieces, setting a sales record. Additionally, I have assisted other brands with product improvements, redesigns, and branding tweaks. This experience not only demonstrated my multitasking ability, but also made me proficient in various skills and applications of Adobe software.

Graphic Designer **07/2020 - 09/2020**

Mega Racer, Inc.

During my three-month internship, I actively participated in the company's sales poster design work to promote the company's performance. This process not only gave me a deeper understanding of the sales industry, but also taught me how to create more attractive posters to attract the target customer group. At the same time, I also mastered how to skillfully use the combination of Photoshop and Illustrator.
